

REQUALIFICATION OF QUALIFICATION IN IMMUNOHISTOCHEMISTRY

Suggested Subject Areas for Continuing Education*

IMMUNOHISTOCHEMISTRY SUBJECT AREAS:

1. Digital pathology and image analysis
2. Histology
3. Immunodeficiency
4. Immunofluorescence preparations
5. Immunohistochemical preparations
6. Immunology
7. Immunophenotyping
8. Immunoproliferative disorders
9. *In situ* hybridization
10. Molecular diagnostics
11. Laboratory information systems
12. Laboratory and patient safety
13. Pathology of diseases for which immunohistochemistry is a diagnostic procedure
14. Quality assurance
15. Quality control
16. Regulations and compliance
17. Supervision/management
18. Transplantation
19. Instrument and assay validation and optimization
20. Companion diagnostics

***Acceptable continuing education is not limited to the subjects on this list. If you are unsure about the acceptability of a subject, please contact the ASCP Board of Certification.**
